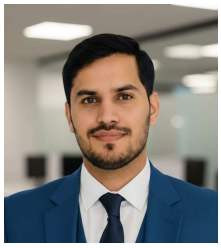
Shahzad Fareed

Fsd ,Pakistan| shahzadfareed38.sf@gmail.com |+923067229254|LinkedIn|Portfolio

Software Engineer with strong foundations in Object-Oriented Programming and hands-on experience in Python & C++. Skilled in embedded systems, industrial automation, and API development. Focused on building efficient real-world solutions.



EXPERIENCE

Backend Developer *Oct 2025 - Present*
Devigners, USA

- Built and tested Python-based APIs, improving data processing and backend functionality.
- Performed API testing and debugging using Postman to ensure reliable performance.
- Implemented version control practices using Git and GitHub for collaborative development.
- Designed and managed NoSQL databases using MongoDB for efficient data handling.
- Collaborated on UI/UX concepts using Figma and streamlined development using VS Code.

EDUCATION

Bachelor of Science (B.S.) – Software Engineering *Sep 2020 - Jun 2024*
Virtual University of Pakistan

Diploma of Associate Engineering (DAE) – Mechanical Technology *Sep 2014 - Jun 2017*
Punjab Board of Technical Education

PROJECTS

Human Detection and Tracking System (Computer Vision) *Oct 2025 - Present*

- Developed a real-time human detection and tracking system using Python and OpenCV.
- Implemented object detection using YOLO model for accurate person identification.
- Applied centroid tracking algorithm to monitor movement and count people.
- Processed video streams (CCTV/live camera) for real-time analytics.
- Improved detection accuracy and system performance through optimization techniques.

REST API Development (Python)

- Developed RESTful APIs using Python for data processing and system integration.
- Implemented CRUD operations and structured endpoints for efficient communication.
- Tested and validated APIs using Postman to ensure reliability and performance.
- Integrated MongoDB for data storage and retrieval.
- Applied version control using Git and GitHub for collaborative development.

SKILLS

Problem Solving, Troubleshooting, Conflicts Resolution, API Development, Python, API Testing.

LANGUAGES

English
